

# Astaro Compliance Reporter for PCI

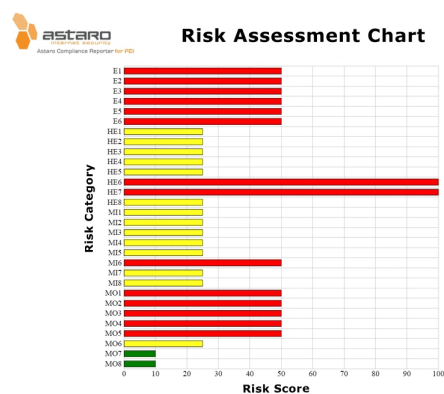

The Astaro Compliance Reporter for PCI is an automated service which allows organizations, operating under Payment Card Industry (PCI) regulation, to easily conduct a formal risk assessment as required by the PCI Data Security Standard (DSS).

Astaro Compliance Reporter for PCI features:

- ▶ **Easy-to-use "Turbo-Tax™" style questionnaires:** Upon completion of the evaluation process, a baseline assessment will be created.
- ▶ **On-demand compliance reports:** Create comprehensive and accurate compliance reports to meet your requirements for board meetings, audits, insurance reviews or any other regulatory need.
- ▶ **Automated updates:** Ensure continual compliance through monthly program updates, meeting the ever-changing requirements of various federal regulations.
- ▶ **Inclusion of security log data:** Use IPS and Anti-Virus incident reports from Astaro Security Gateway to verify the integrity of established system and information policies and procedures.

**Automated Baseline Report**
